

Our priority is the health and safety of all U90C event participants. All U90C staff, officials, players, coaches, and spectators will follow guidelines as detailed by the state of Texas and local health officials.

All state required guidelines will be followed regarding youth sports operators and confirmed COVID-19 positive cases. Please reference current state guidelines [HERE](#).

- All staff are trained on appropriate cleaning and disinfection, hand hygiene, and respiratory etiquette.
- Staff are screened daily for any of the following signs or symptoms of possible COVID-19, and symptomatic individuals are not permitted onsite.

- * Cough
- * Shortness of breath/difficulty breathing
- * Chills
- * Repeated shaking with chills
- * Muscle pain
- * Headache
- * Sore throat
- * Loss of taste or smell
- * Diarrhea
- * Feverish/measured temperature $\geq 100^{\circ}$ F
- * Known contact with confirmed COVID-19 positive person

Game-day prevention procedures:

A team representative must be dedicated to ensuring all health protocols are being successfully implemented and followed and they will be responsible for your team's compliance. Individuals that do not comply with these policies will receive a verbal warning and further non-compliance will result in removal from the complex.

1. Teams will be required to submit a liability waiver prior to play.
2. To comply with social distancing mandates, we recommend **one spectator per player**. Spectators should maintain at least 6 feet social distancing from individuals not within the spectator's group.
3. **Masks are required for everyone over the age of 10 and must be worn at all times. Coaches, players, and referees may remove their face coverings while participating in physical activity (warm-ups and matches.)**
The only exemptions will be those circumstances allowed per the most recent [Texas Governor's Executive Order](#).
4. High-risk individuals, such as those with preexisting health conditions or age 65 and older, are encouraged to stay home. Remind participants, parents, and guardians of the enhanced risks of participants being in direct contact with these high-risk individuals for 14 days after participating in the youth sporting event or practice.
5. All participants and spectators are to maintain at least 6 feet from the officials and sidelines.
6. All participants and spectators are responsible for their own PPE (masks, sanitizer, and disinfectants.)
7. **Player benches will not be provided to prevent cross-contamination.** All participants and spectators are

responsible for providing and disinfecting their own seating. Where benches or permanent structures are unable to be moved, it is recommended you use your own seating or disinfect any permanent structure before use.

8. To maximize areas for social distancing, **players, coaches, and spectators will use both sides of the field when field configuration allows enough space.** Team A participants and spectators will use one side of the field and Team B will use the opposite. Though all spectators will be with the team, spectators and team participants are required to remain separate during the game.
9. Do not arrive onsite more than 45 minutes before your game time. Do not warm up in areas where you are unable to socially distance yourselves from other teams or individuals outside of your spectator group. The incoming teams/spectators should not arrive at the field until the previous teams have left. Forego pre/post-game handshakes and any contact celebrations. Immediately leave the field when your game is over to allow the incoming teams/spectators to take the field. Exit quickly and hold team meetings outside the complex.
10. If a player needs non-emergency assistance from an athletic trainer, a mask is required. Trainers will screen players per their protocols.
11. Every adult who is responsible for providing care for youth in these settings must be aware of these facts and be willing to comply with the infection control measures that will be in place in these settings. Parents should monitor the health of their children and not send them to participate in sporting activities if they exhibit any symptom of COVID-19. They should seek COVID-19 testing promptly and report results to the program given the implications for other children, families, and staff.
12. Do not share water or snacks, stay hydrated and healthy, pre-screen your family members and stay home if you are sick, arrive and stay on location for your scheduled games only.

If you have attended our events and recently tested positive (within 10 days of the event) for COVID-19, it is your responsibility to notify us to prevent further spread. As a result of COVID-19 positive reporting:

- **For League Play:** Per state guidelines, for a team with a reported lab-confirmed case, the team will be suspended from play until one of the following criteria are met:

- 1) COVID-19 positive individual must pass the following criteria:
 - a. At least 10 days have passed since symptoms first appeared.
 - b. AND the individual has improvement in symptoms
 - c. AND at least 3 days (72 hours) have passed since recovery (resolution of fever without the use of fever-reducing medications)
- 2) All participating coaches and players submit lab-confirmed negative tests; **with the US Club Soccer “pool play” concept, it may be possible for unexposed players to compete and allow the team to play.**
- 3) Refunds:
 - a. If the season is fully cancelled prior to starting teams will receive a 100% refund less a % of unrecoverable costs prior to the season starting.
 - b. If the season starts but is cancelled / suspended teams will receive a prorated refund based upon unrecoverable costs at the time of cancelation / suspension in direct correlation to the number of games played / un-played.

- **For Tournament Play:** Teams with a COVID-19 positive case will be withdrawn from the tournament. Refunds: determined on a case-by-case basis
