

Removing a Player from an Event in GotSoccer

* If a player is not attending an event you can hide the players profile from that event without removing the player from your roster

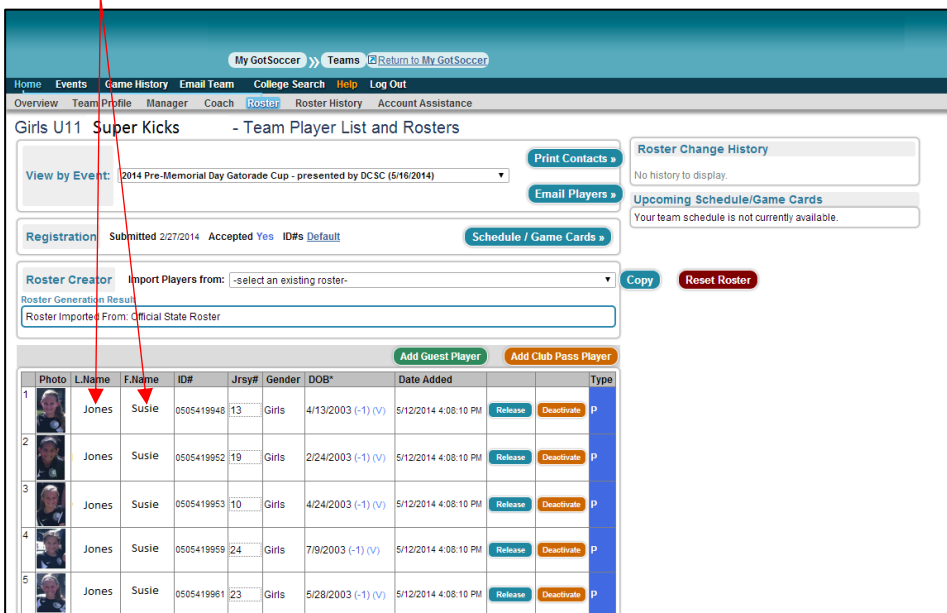

Click on the **ROSTER** tab in the Gray Menu Bar

The screenshot shows the GotSoccer interface for a team named "Girls U11 Super Kicks". The "Roster" tab is highlighted in the Gray Menu Bar. The main content area displays the "Team Player List and Rosters" for the "2014 Pre-Memorial Day Gatorade Cup" event. A table lists five players, all named "Susie Jones". Each player row has "Release" and "Deactivate" buttons. The "Roster Creator" section shows "Import Players from: Official State Roster".

Click on the name (either first or last) of the player you want to remove

This screenshot is identical to the previous one, but a red arrow points to the first name "Susie" in the first row of the player list table, indicating the target for removal.
